Coleborne Avenue Mortdale. Phone: 9580 2852 Fax: 95807054

### A message from the principal's desk:

Another busy term has come to an end and I'm sure students and staff alike are looking forward to the break. A friendly reminder to parents, that as winter is now upon us and the weather is much colder, please dress your child in warm gear. We also have students who catch colds and flu and are too unwell to attend school. As you would know, these illnesses can make children feel very unwell and often cause symptoms such as coughing, runny noses and sneezing. If your child is sick, it is often better to keep them at home until they are feeling better. This will assist in their recovery and also help stop the classmates.

Stay safe over the two week break and I look forward to Term 3.

**Janelle Radke**

On Thursdays some of the classes participate in lessons and students are able to borrow books.

During the lunch break on Thursday all students can access the library for computer time and borrowing books, students are able to borrow up to five books per time to take home.

Tyler from class 8 says "the range of books are fabulous especially Goosebumps, and it's free".

### Dates to remember:

Term 3 begins Tuesday 14<sup>th</sup> July 2015

29<sup>th</sup> July - Education Week celebrations

## Carinya Garden Project Update

Since the early stages of Term One this year, the St George Men's Shed have been incredibly busy at Carinya constructing four large garden beds, as part of our garden project.

The idea for a vegetable and flower garden was conceived in mid 2014 and with the St George Men's Shed at the ready, so the seeds were planted for our project. After much consultation and collaboration, Mr Bernie Dolan (current President of the Rotary Club of Hurstville) and his team of highly skilled men began drawing up plans and taking measurements in preparation for the garden beds, that are now stand completed in our grounds. We have been very fortunate to be in receipt of generously donated funds for our project, with \$1000 from Mark Coure MP, an individual donation from Mrs Marion Smith of \$250 to the Rotary Club of Hurstville for our project, \$500 from the Rotary Club of Hurstville and \$1000 from the Mayor of Hurstville Council as part of his commitment to promoting gardens in schools. Plans are in place for the Men's Shed to paint the timber beds during the school

holidays (weather permitting) so that we can begin the next exciting phase of our project, that being to prepare the beds for the delivery of the soil and planting in late winter and early spring.

Carinya's friendship with the St George Men's Shed continues to grow and we very much appreciate the time, energy and skills that these wonderful men bring to our school community.

Many thanks to all who have and continue to assist us with our projects.

**Kathreen Wilson**

## Cronulla Excursion

On Monday classes 8 and 7 went to Cronulla by train. We had a nice walk along the beachfront where we noticed a lot of apartments they were really fancy. We saw a nice restaurant with glass walls, it was awesome.

We went to the park and played on the swings and had a friendly game of tip. Then we went to Oportos to buy lunch before returning to school. What a great way to finish the term.

Class 8

## **SPORTS REPORT**

During Term 2, the students at Carinya have participated in a number of sporting events. The sports program at Carinya supports the NSW PDHPE syllabus and relevant programs.

Students again attended Kogarah RSL to participate in Gymnastics activities. Kogarah RSL kindly provided transport to and from the school for students. Whilst at Gymnastics students have been trained by a fully qualified Gymnastics instructor and provided with an opportunity to use professional equipment. The students would like to thank Miss Jenny for organising the venue and transport.

Throughout this Term students also attended Southgate Bowling alley on a Tuesday afternoon. During this time the students enjoyed an opportunity to compete against one another whilst promoting their bowling skills. A special thank you to Ms Wendy for organising and driving the bus each week to Southgate.

Also at Carinya, 2 mornings a week for 30 minutes, students participate in a fitness program. The students take part in structured and organised competitive games and activities to enhance their FMS (Fundamental Movement Skills). Students also learn to develop their team work and sportsmanship skills.

Term 3 will again be an exciting term for sport. Students will have an opportunity to take part in the Gymnastics program. Notes for this will be sent home at the beginning of Term 3. Students will also rotate through a number of different sporting activities throughout the term. One of these activities will be an opportunity for students to practice their Athletics and running skills in preparation for the School Athletics carnival to be held at the end of Term 3.

We hope everyone has a safe and enjoyable holiday.

## 2006: Kakadu

In the future I'm going to make a movie about a giant 50-metre (75- foot) crocodile who tries to stop a poacher from taking over the entire world. The movie's title is going to be called: '2006 Kakadu'.

Before I start, I was going to have an interview at a radio station in Sydney, to talk about what the movie's going to be like and when I'm starting a career as an actor. The movie is going to be based on a true story about the crocodile that got tagged and released during the filming of Ocean's Deadliest and witnessed the stingray accident that took the crocodile hunter's life.

At the beginning a giant crocodile is being experimented on but a power spike causes an accident that left it with genetically altered DNA. It had the neurotoxic venom of a rattlesnake, the ability to grow wings out of its back, the ability to hear crimes in progress millions of miles away, the ability to fly by using methane gas and the ability for people to hear the crocodile's heart 150 kilometres away.

In the ending, the crocodile managed to stop the poacher by eating him. The croc had to save innocent civilians from a

burning building. Just as the croc was about to get out of the building, the explosion blew the crocodile out leaving it burnt and mortally injured. The crocodile was taken to the animal hospital unfortunately the crocodile succumbed to his injuries and died.

The funeral took place at Cedar Creek Falls in Queensland. It was buried there into the ground and the people hoped he was in a better place.

In an after-credits scene, the crocodile's eye opened slowly and heart beating meant the croc will come back for a sequel.

Genre: Action, Comedy, Thriller

## Class 3

### Totem Paintings

Every person in Aboriginal culture is connected to an animal, plant, place or other object. It is a spiritual connection and these **totems** are related to you through your ancestors. Every Aboriginal person has come from one Totemic Being, or ancestor from the creation time. A totem can be a large rock, tree, hill, river, or a type of animal such as a crocodile, wallaby, eagle and can also have a man-made emblem. In some areas totems are worn around the neck. For our paintings we chose an animal that we liked and chose colours and symbols that related to it.

# Moroccan Chicken and Vegetable Rolls

Preparation time 25 minutes

Cooking time 25 minutes

Serves 4

## ***Ingredients***

2 sheets Pampas puff pastry, thawed  
2 tablespoons olive oil  
1 medium brown onion  
finely diced  
500 g chicken mince  
3 teaspoons Moroccan spice  
1 medium carrot grated  
1 medium Zucchini grated  
2 egg yolks  
salt and pepper  
1 tablespoon milk  
1 1/2 tablespoons sesame seeds

## ***Method***

1. Preheat oven to 200c and line an oven tray with baking paper. Heat oil in a small frying pan over medium heat. Add the onion and cook for 3 minutes, stirring often, until soft. Remove and set aside. Combine chicken, Moroccan spice, carrot, zucchini and egg yolks in a bowl. Add the onion and season with salt and pepper. Mix thoroughly.
2. Cut each pastry sheet in half. Divide chicken mixture evenly between the 4 pieces of pastry, forming a long, thick sausage down the middle of each piece. Brush one edge of each piece of pastry with milk and fold the pastry over to totally enclose the filling. Trim ends of any excess pastry, then cut each roll in half.
3. Place the rolls on the prepared oven tray and brush with milk. Slash the top of each with a knife in a few places to expose the filling, then sprinkle sesame seeds. Bake for 20 - 25 minutes or until the pastry is golden brown.

Serve with a bowl of steamed baby carrots and pumpkin, scattered with toasted slivered almonds and drizzled with olive oil.
