Term 3 Week 7

Carinya News

Also available at the school website http://www.carinya-s.schools.nsw.edu.au/or on mobile device via "Skoolbag" App

Special points of interest:

Thank you SRC members for your contributions to the Friday assemblies.

The SRC have been successfully running board games each Monday for students who prefer less active recreation.

Peace Day Activities

Will occur on 21 September and will also be acknowledged during our **End of Term Sports Day** on Friday 22 September.

Happy Birthdays

Michael 17, Luke 16

NOVA PATHWAYS

NOVA have been working with our senior students as they prepare for their post school lives. Our senior students will be graduating the NOVA Job Club course later in the term. On Thursday this week some of our students attended a forum where they heard from young people who had secured employment.

Class 6 STEM -Balloon Powered cars

Class 6 looked at Newton's laws of motion, particularly the law which states that for every action (force) in nature there is an equal and opposite

reaction. Students used cardboard, straws, skewers, tape and balloons to create their cars. It was a big design challenge and congratulations to Luke, whose car moved 20cm. Next time we will use better wheels.

On Macbeth-Film Review

The theme is of betrayal and deceit dipped in prophesies.

Macduff: Lady Macduff: Macbeth: Lady Macbeth: King Duncan: Malcolm: Banquo: Fleance: The 3 sisters.

The acting was good however the special effects left a lot to be desired.

A lot of it was hard to understand and the plot was thin and flawed.

The wordplay was okay if a bit hard to understand and you had to know what is going on beforehand or else it will get very confusing for newcomers.

And you have to understand lots of Old English terms and locations. A decent understanding of Scottish/ English Monarchy or Government makes the movie much easier to understand.
